Safeguarding

Child Protection - Supervision Skills

Outline

The Statutory Framework for the Early Years Foundation Stage (2017) requires providers to put appropriate arrangements in place for the supervision of staff who have contact with children and families. This training will support supervising managers to develop their skills and knowledge in order to effectively supervise staff to develop their safeguarding practice to improve outcomes for children. The training explores the different types of supervision, including the supervision cycle, and how to prepare for and maintain effective safeguarding supervision.

Outcome

To equip front-line managers and leaders within early year's settings with the:

- skills
- knowledge
- understanding

to effectively supervise safeguarding practice within their settings and have management oversight of individual child protection cases with a view to improving outcomes for children.
