

what3words

- West Yorkshire Police is now using the GPS location app 'what3words', which is able to pinpoint your location to within 3 meters
- The app works by dividing the world up into 3 metre squares and giving each word its own unique three words

Search

'I'm on West Street'
'Where? Can't see you'

999 call – 'I've found a strange package, but don't want to touch it.'

///[cover.take.betray](#)

///[humid.stacks.reef](#)

///[stores.remote.rubble](#)

Car accident on main road.
///[dog.dizzy.shed](#)

In case of an emergency you can report a precise location and save valuable minutes and seconds for emergency services to reach you.
